

# Global Alzheimer's Disease Awareness Survey

Novartis, Amgen and Banner Alzheimer's Institute (BAI) are working with Alzheimer's Disease International to raise awareness of how to [get involved in Alzheimer's research](#).

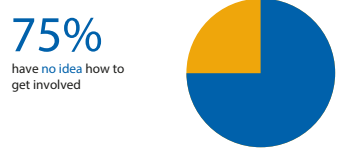

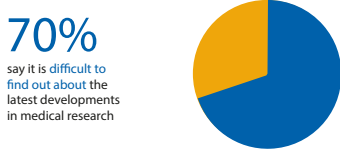

## Concern about Alzheimer's

## Hope for a brighter future

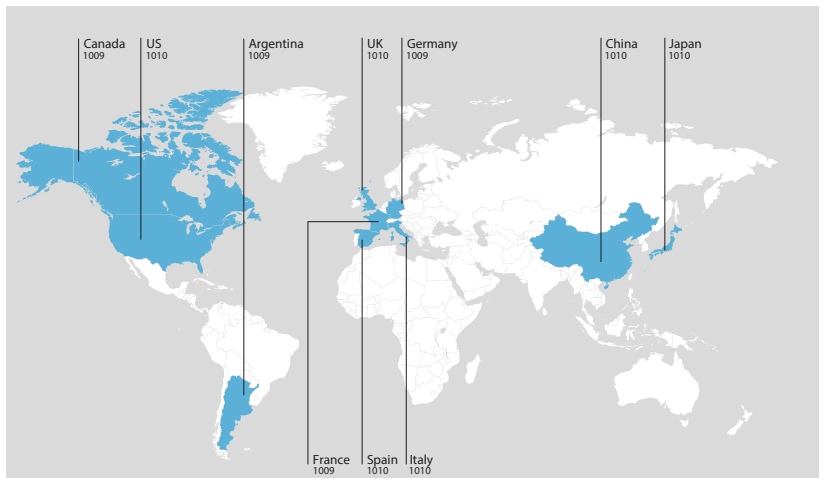

## Greater awareness and information needed

## About the survey

**10** countries

## Find out more

Novartis, Amgen and BAI are sponsors of the Alzheimer's Prevention Initiative's [Generation Program](#), which is evaluating investigational treatments to help prevent or delay the onset of Alzheimer's. The Program is enrolling volunteers aged 60-75 who are at higher risk of developing Alzheimer's but do not currently have or show signs of the disease.

Find out more by visiting [www.generationprogram.com](http://www.generationprogram.com)

Information about clinical trials is widely available online and from local patient advocacy groups. Details of Alzheimer's clinical studies can be found on the Alzheimer's Disease International website and the Alzheimer's Prevention Registry:
